

Ring Sizing

There are several ways to check your size before you buy that perfect ring. The most accurate is to visit our store, where we can measure your finger exactly. If you prefer to measure at home, please print out the ring sizer overleaf.

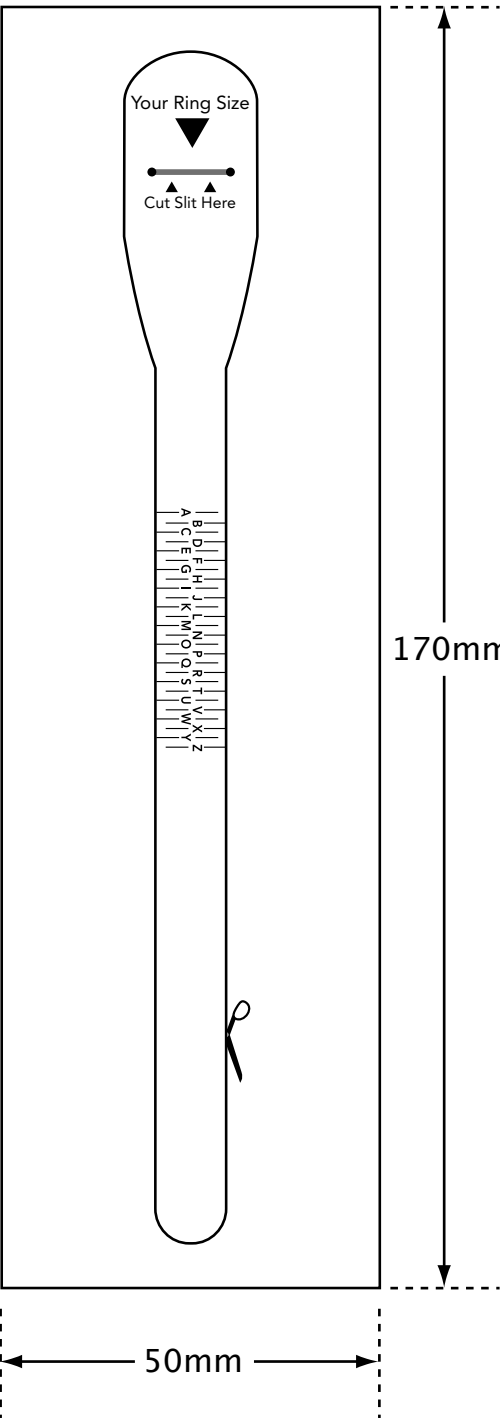

To help you find the right ring size we have compiled a table with ring size measurements.

Rings which have a deep band width need to be slightly larger than your normal rings so consider this when checking your size.

If you find that the ring you've bought is too big or small, just take it along to our store. We'll either re-size or exchange it, to make sure you always get the perfect fit.

Ring belt sizer

How to measure your ring size:

1. Print out this document. When printing ensure that you do not select the option to fit to page or to shrink the page.
2. Measure the outer box and ensure that it is 170mm by 50mm.
3. Cut out the sizer and make a slit where shown.
4. Push the end through the slit and slip it over your finger.
5. Adjust the sizer so that it sits comfortably around your finger.
6. Check that you can remove the sizer over your knuckle without difficulty.
7. Read off the letter indicated by the arrow and that is your size.

Please remember:

1. Ensure that the sizer can slide on and off your finger comfortably.
2. Do not pull on the sizer tightly as this will give you the wrong size.
